

College Credit Plus at North Union High School

There are several ways to earn college credit and get a jump on that college degree!

1. Take college classes at a local college or university

- You apply to the college—by May 1
- You meet with the college and schedule your own classes
- We work your other high school classes around your college classes

Colleges in our area who accept CCP students:

- ◇ Marion Technical College
- ◇ Ohio State University—Marion & Columbus
- ◇ Columbus State Community College

Typically, students are at NU in the morning for a few periods, then leave our school campus to attend college classes.

2. Participate in Early College at NUHS with Marion Technical College

- Classes meet 7th & 8th periods on a block schedule here at the high school
- MTC professor travels to NUHS to teach the class
- You must apply for admission to Marion Technical College by May 1
- No traveling (especially nice in the winter)
- Some classes have requirements the students have to meet (Example: a 22 on the ACT math section for College Algebra)
- You meet on the NU calendar—if we do not have school, there is no class.
- Classes are scheduled on a two year rotation so students can participate both junior and senior year and have different options.
- All classes are “TAG” assured and will transfer into any public university in Ohio as well as most private colleges in Ohio.

3. Take a class at NUHS, taught by NUHS faculty, which is designated as “CCP”

- Our teachers serve as an adjunct professor for the college.
- Application to the college is completed in class.
- Credit is transcribed and awarded at the end of the school year.
- Classes are usually worth 4-6 semester hours.
- Some classes do have a testing requirement to meet.
