July Summer Meal Info

For the month of July we have contracted with a food delivery service called Innovation Foods. This will let our staff have a much needed break. This service will deliver a week's worth of meals straight to the home of the student. This will include 7 entrees, 7 servings of vegetables, 7 fruit servings and milk. Also seven complete breakfast kits. The boxes are packed with refrigerant to ensure that your meals are delivered safely to your house. When the box is delivered to your house you will get

a notification from FedEx that the box has been dropped at the house. There will be instructions in every box on how to handle the meals and proper heating instructions. **If you have more than one student please fill out a form for each student.** For a picture of what is offered go to the NU Food Service page on Facebook. You will need to sign up for this service. The link will be posted on the NU Food Service Facebook page. An email will also be sent out with the link to the form. If you do not have access to the internet you can call 740-943-1604 to place your order (please leave a message with your name and phone number). All children from ages 1-18 qualify for this service.
